Application and Description
These PTFE insulation with a polyimide hard single-core MIL-W-22759/30 wires are used for MIL-Spec and Aerospace. These wires are designed for aerospace and other applications requiring excellent thermal stability, tight dimensional tolerances, and high reliability. These wires are especially well-suited in applications where smoke emission, overload stability, and flammability are major concerns.

Construction Details
PTFE is extruded

Construction

Polyimide coating jacket
Silver-plated high-strength copper conductor
PTFE insulation

Conductor: Silver-plated high-strength copper alloy
Insulation: Extruded PTFE
Insulating Material Thickness: 10 mil (0.25 mm)
Jacket: Polyimide coating

Characteristics
Temperature Rating: 200°C
Voltage Rating: 600 volts
SAE AS22759/30
Color Code: MIL-STD-681
